

Consecutive Search Day Analysis

Data Review of Eugene Police Department

Public Local Flock Search Audit Records

Sept 22, 2025

Seth May

eugenecitfoia@gmail.com

<https://eyesoffeugene.org/>

Full audit log data can be found in the public GitHub repository

<https://github.com/eyes-off/eugene-oregon/tree/main/FlockAuditLogs>

Summary

This file lists statistics and data intended to identify any inconsistencies or possible anomalies in the Eugene Police Department's (EPD) use of the Flock Safety system. All data can be found in the public local flock search audit records found on the city's transparency portal (<https://transparency.flocksafety.com/eugene-or-pd>). Since records are only for the last 30 days, this report is based on archived versions of the data (see GitHub for the full dataset).

About the Data Sets

A Note About Dates - Date/Time values found in the original audit data downloads is in UTC time. To make the data more useable locally, these values have been shifted to PST. Please note the PST addition to the column heading specifically identifying shifted data.

Top Searchers - Show a list of users ordered by the number of searches they have made.

Consecutive Search Day Events - A list of every time a single user searched Flock 5 or more days consecutively. Since most officers work 3 and 4 days 12 hour shifts, searches happening 5 or more days in a row may indicate misuse of the Flock search data by being used off-shift, or for personal reasons.

Event1 - Event6 - Search records data for each of the top 6 events where searches happened between 6 and 11 days consecutively. Note that the reasons "Daytime search for best result" may be an automated search (which raises its own set of questions), but does not resolve consecutive search date problems for all the events.
