RE: Request Number [Request Number: EPD-2025-3072](#)

Submitted on: 7/3/2025

Description of records requested: I am requesting access to and copies of all permits, applications, approvals, or related documentation concerning the installation of Flock Safety cameras within the City of Eugene. Specifically, I am requesting records for any such permits or installations that were submitted, approved, or issued on or after March 24, 2025, the date the contract with Flock Safety was signed. If available, please include the following details for each permit or installation: • Permit number or reference ID • Date of application and approval • Installation address or location • Name of applicant or contracting entity • Scope of work or project description I request that the information be provided in electronic format, if possible. If there are any fees for searching or copying these records, please inform me in advance. If you need clarification to process this request, I am happy to provide additional details. Thank you for your assistance.

Dear Seth,

The City of Eugene has conducted research and determined that the City is not the custodian of the requested records. Any permits or installation records would be held by Flock Safety.

The City does not possess the requested records and the City considers this request closed.

The City estimates that .5 hours of staff time were utilized to search in an attempt to identify responsive records. The City will issue a refund in the amount of \$79.81 for the unused research time.

The City's finance section will need the last 4 digits of the cc used for payment in order to initiate a refund. If you can provide that information, we will send you the confirmation once the refund has been processed. If you are not comfortable sending that via email, feel free to contact my office directly.

If an exemption has been asserted, you may seek review of that decision pursuant to ORS 192.415.

Thank you,
Eugene Police Department
